**Lumberton Board of Adjustment**

Item: III.A.

**Lumberton, North Carolina**

**Request for Action**

**Meeting Date:** May 19, 2026

**Originated By:** Planning & Neighborhood Services

**Submission Date:** 05/12/2026

**Subject:** Davis Ray variance request- 2109 Griffin St. P-2 - WITHDRAW REQUEST

**Summary/Background of Subject Matter:**

Davis Ray is requesting a Variance from the requirements of Section 35-167, Multifamily Developments, and Section 35-181. Minimum lot size. of the City Code for property located at 2109 Griffin St. (parcel # 10090200403) for a multifamily development with 84 units.

Mr. Ray requests that the Board of Adjustment accept his request to withdraw this application.

**Staff Recommendation:**

The Planning Staff asks the Board of Adjustment to accept the applicant's request to withdraw this application.

**City Manager's Comments:**

**Department:** Planning & Neighborhood Services

**ATTACHMENTS:**

1. VARIANCE Application -et.al. (FINAL)

**c) The hardship did not result from actions taken by the applicant or the property owner:**

The current zoning restrictions have a radius measurement that will not allow more than 48 units on the site, as is. Due to the need of additional housing throughout the state and the community, we are requesting the variance of this requirement

---

---

**d) The requested variance is consistent with the spirit, purpose, and intent of the ordinance, such that public safety is secured and substantial justice is achieved:**

The request is consistent with the goals and plans of incorporating additional affordable housing units in the City of Lumberton. Additionally, the most recent market study conducted by a third-party supports the area's addition of affordable housing. We will comply with the local and state requirements for permitting and inspections and the development will be a natural fit to the existing neighborhood. None of the development features will add to any concerns with a respect of public safety.

**I certify that all of the information presented by me in this Application is accurate to the best of my knowledge, information and belief.**

**PROJECT OVERVIEW**

**Analysis:** Davis Ray is requesting a Variance from the requirements of Section 35-167, Multifamily Developments, and Section 35-181. Minimum lot size. of the City Code for property located at 2109 Griffin St. (parcel # 10090200403) for a multifamily development with 84 units.

- **Section 35-167, Multifamily Developments**, states “A multifamily residential development shall not be located at a site where there exists more than three hundred fifty (350) approved multifamily residential units (including approved mobile home spaces and those within the proposed multifamily residential development) within a one-half-mile radius of the geographic center of the proposed multifamily residential development.”
  - This location will not meet the requirements of Section 35-167(b) because with the addition of the proposed 84 units, there will be 376 multifamily units within a ½ mile radius of the aforementioned property (including this request).
  - This will be a variance to allow 26 additional units, which will total 376 units within a ½ mile radius of the aforementioned property.
- **Section 35-181. Minimum lot size** for the proposed B-2 zoning district is -3,000 square feet for each unit. With only 5.5 acres, he will only be allowed 80 units.
  - This will be a variance to allow 4 additional units.

He also submitted a rezoning application to rezone the property to B-2.

**DEPARTMENT PRELIMINARY COMMENTS:**

**Public Works:**

- Even though we don't have any details, Public Works would recommend the street be improved for a multi-family project. The street will not be able to handle the additional trips per day without improvements. The existing pavement width is approximately 20' and the right of way varies between 30' and 40' (see attached). The street drainage is not well defined and there are multiple utility conflicts (over head and under ground) that make street improvements a challenge. One alternative that may be considered is a primary drive for the project that has direct access out to Noody Johnson or Woodridge. Our ordinance states the developer will be responsible for these improvements.

**Fire Department:**

- All portions of the buildings must be within 400' of a Fire Hydrant. The developer may have to add supporting hydrants to meet these requirements.

**Land Use Plan:** The Land Use Plan Designation: Medium Intensity Precinct 2.

**MEDIUM INTENSITY**

The Medium Intensity land use category is intended to accommodate medium density residential development (up to 10 dwelling units / acre), including both single family residences and larger scale multi-family dwellings. This land use category is also intended to accommodate the use and development of land for medium intensity nonresidential uses, such as churches, schools, neighborhood scale retail, professional offices and similar uses when sited in a manner that does not negatively impact adjoining residential uses located within this or an adjacent lower intensity land use category. In general, these areas are intended to provide a transition between low and high intensity land uses, as well as to facilitate redevelopment in areas where increased density and/or intensity of use is desired.

**FLOOD RISK INFORMATION SYSTEM (FRIS) INFORMATION**

**Flood Zone ‘X’ (Not in 100-yr floodplain):** Zone X is the flood insurance rate zone that corresponds to areas outside the 0.2% annual chance floodplain, areas within the 0.2% annual chance floodplain, and to areas of 1% annual chance flooding where average depths are less than 1 foot, areas of 1% annual chance flooding where the contributing drainage area is less than 1 square mile, and areas protected from the 1% annual chance flood by levees. No Base Flood Elevations or depths are shown within this zone.

**DEVELOPMENT UPON APPROVAL**

If this variance is granted the applicant must submit site development plans to the City of Lumberton's Planning Department for approval. All conditions of the Variance Permit must be addressed prior to the issuance of a Land Use Permit.

**PLANNING STAFF RECOMMENDATION TO BOARD OF ADJUSTMENTS**

Hold tonight's public hearing and make a separate vote on each of the four (4) factors stated in the application.

- a) Unnecessary hardship would result from the strict application of the ordinance.
- b) The hardship results from conditions that are peculiar to the property, such as location, size, or topography.
- c) The hardship did not result from actions taken by the applicant or the property owner.
- d) The requested variance is consistent with the spirit, purpose, and intent of the ordinance, such that public safety is secured and substantial justice is achieved.
